In 1995, Eugene Dozortsev, a world class entrepreneur, saw an opportunity to satisfy a business and personal need. He envisioned a New York based, family, wine and spirit distributorship and importer partnered with his son Arty. Since then, Dozortsev and Sons has grown and prospered!

The company they built is now a successful, highly praised, multi-state wholesaler/importer, always true to the family's business code of quality, authenticity, service, value and the personal touch. And uniquely, there is an active owner at the business every day!

As a mid sized company, we are perfectly suited to drive innovation in our markets. Dozortzev and Sons is constantly evolving, updating our approach, and our operations and refining our fine wine and craft spirit portfolios, of stellar estates and distilleries from around the world. Another important benefit of our size and award winning selections (with no in house brand against brand competition) is our ability, as skilled brand builders, to act as an extension of our suppliers to our customers who proudly introduce our portfolio to their customers.

We joyously celebrate our success everyday with our Team, Customers and Suppliers! Time really does fly by when you are having fun. And from our family to your family, thank you, we have had a wonderful run with much more fun, success and great products coming with your continued help and support!

YAMAZAKURA

JAPANESE WHISKY

ASAKA DISTILLERY

Sasanokawa Shuzo was issued Tohoku's first whisky-making license in 1946. It was recently reborn and refurbished in 2016 as the Asaka Distillery. Today we take a look at what to expect from this historical maker. Asaka Distillery isn't completely new. Behind the distillery is a company called Sasanokawa Shuzo, who has been in the alcohol business since 1765.

In 1946, they jumped into whisky production – or at least what “whisky production” meant in Japan in those days. The company hit their stride in the 1980s with Cherry Whisky, relying heavily on imported Scotch whisky and molasses-based spirit. They were Tohoku's premier “Ji-whisky” producer at the time. After that particular whisky boom was over, Sasanokawa Shuzo more or less called it quits on distilling their own whisky at the Yamazakura Distillery.

They had plenty of stock maturing on-site as well. Even though they weren't making their own whisky at the time, the company famously came to the rescue of Ichiro Akuto, who needed a place to store about 400 casks of Hanyu in 2004.

SINGLE MALT WHISKY

Ingredient: Malt

Alcohol: 43%

Location: Fukushima, Japan

Feature: This product is non-peated japanese single malt whisky produced at asaka distillery. We carefully selected and used the bourbon barrel first fill which was aged for more than 3 years in a climate with severe temperature differences. It has a complex and profound taste with a fresh, young and a fruity aroma. You can also feel the lingering scent of citrus.

THE JOHN MILROY

SELECTION OF SINGLE CASK, SINGLE MALT SCOTCH WHISKY

The John Milroy Selection, of **Single Cask**, Single Malt Scotch Whisky is one of Scotland's most highly prized whiskies.

Mr. Milroy founded his retail wine and spirits store in London in 1964. By 1966, Milroy's of London, had become not only the world's most respected purveyor of single cask single malt Scotch whiskies, but literally established the category. Specially selected casks of rare and unique malts are chosen by our Whisky Master and bottled at full strength without the intervening process of chill-filtration. A single cask will result in about 250 bottles. As two identical cask will produce whiskies of different bouquets and flavors, once those 250 bottles are sold there will never be an exact duplicate of it again. The bottlings are a one of a kind, limited edition's.

SOUTH BAY RUM

40% ABV | 6/750ML

Handcrafted by award winning Cuban Rum Master who immigrated to the Dominican Republic, South Bay Rum is blended to perfection. Full bodied with a complex aroma, it's richly flavorful and has a velvety smooth finish, satisfying the most sophisticated palates.

South Bay Rum is produced in small batches, using matured rum from a wide range of hand selected barrels. Each barrel imparts its own characteristic to the finished product as they have formerly held bourbon, sherry, port, wine and single malt Scotch whiskey.

Using the Solera method, the contents of the barrels are married for a significant period of time to obtain the rich flavors and remarkably smooth finish of South Bay Rum.

It's the precise combination of the climate, Soil and ingredients, together with our Cuban Rum Master's experienced hands, which make South Bay Rum richly rewarding and one-of-a-kind.

TASMANIAN TIGER

PREMIUM VODKA

Tasmanian Tiger is an ultra premium vodka made using some of the purest water in the world; gifted to us by rains swept across the great Southern Ocean from the crystal clear ice caps of Antarctica.

Tasmania Tiger Vodka was born out of a true passion for both the land and water from which it was produced and the creatures therein. One of those creatures is the elusive Tasmanian Tiger, whose very existence remains up for debate. There are credible reports of sightings dating back to the 1970s, suggesting that the animal once roamed the rugged island and may have recently gone extinct. Hoping to get to the bottom of things, the brand will donate a percentage of its revenue toward finding the tiger and saving the environment that was home to this elusive creature.

VAUDON

Villars Marange - 16170 Echallat

It all started in 1771, when Francois Gaborit bequeathed his Mérimnac domain and vineyards to his stepson, Pierre Nalbert. For generations, the domain grew and evolved: Denis Nalbert, as early as 1833, described how April frosts, dry spells and hail storms affected harvest. Fast forward to the 20th Century: Denis, then Pierre Mousset planted a large part of today's vineyards and installed the first 25hl still. The second was installed by Bernard Vaudon. He married Anne-Marie Mousset: the two of them being from vine-growing families, the estate grew again.

GEO. BENZ & SONS[®]

CLASSIC AMERICAN BOURBON WHISKEY

DISTILLED, MATURED & BOTTLED IN MINNESOTA

April 27, 1878

*George Benz
St. Louis, Mo.*

George Benz, born in Osthofen, Germany in 1838, immigrated to the United States at age 15 and moved from Chicago to Minnesota three years later. By 1865, he became a liquor wholesaler.

In 1878, he expanded into the distilling business to ensure a guaranteed supply of exceptional whisky for his blending and bottling business. He opened many distilleries in Maryland, Pennsylvania, Kentucky and Indiana. He brought his five sons into the business, who carried it on until the advent of prohibition, when it was sold.

Benz had truly realized the American Dream, coming to this country with little more than the clothing on his back, he grew his business to be one of the largest liquor operations in the country. During that time, he gave back to his beloved country through public service and private philanthropy.

We celebrate his life's work with the introduction of Geo. Benz & Sons, Classic American Bourbon Whiskey, which is distilled, matured and bottled in his home state of Minnesota.

Sip, Savor and Toast to a true American Legend and the American Dream!

B LEMON SPRITZ

LIMONCINO & SPARKLING

LEMON FLAVORED WINE BASED BEVERAGE

Spritz is a traditional Italian cocktail with a long history, connected to the Hapsburg domination in the Lombardy Venetian Kingdom. To create Lemon Spritz we got inspired by our Bottega Spritz, a cocktail based on sparkling wine, Limoncino - our lemon liqueur – and mint leaves. Lemon Spritz is a ready-to-drink, low-alcohol cocktail with a pleasantly refreshing taste that makes it an original and interesting version of the classic Spritz.

PRODUCTION AREA: Veneto, Italy

CHARACTERISTICS: Lemon Spritz derives from the combination of white sparkling wine, infusion of lemons organically grown in Sicily (the same used for Limoncino, our lemon liqueur) and mint. Its bubbles comes from the sparkling wine and not by the addition of carbon dioxide, making it fresh and lively. The correct pairing and dosing of quality ingredients lead to a product with a full, strong character, with low alcohol content, perfect for leisure time spent with friends.

ORGANOLEPTIC CHARACTERISTICS:

COLOR AND APPEARANCE: Slightly cloudy yellow.

BOUQUET: Intense lemon aroma, combined with hints of mint and fruity notes from the white sparkling wine.

TASTE: Fresh and full, with hints of citrus fruits and wine. On the palate it has a bitter-sweet taste.

ABV: 5.4%

SERVING SUGGESTIONS: It is a ready-to-drink cocktail, to be served cold, pure, on the rocks or with mint leaves. It is a perfect match with savory snacks like chips and peanuts and with cheese as well.

HIERBAS IBICENCAS

ARTISAN LIQUEUR

FROM IBIZA, SPAIN

The Ibizan Juan Fluxà founded the family business Destilerías Ibiza in order to promote the richness of the most traditional products of the land and the Ibizan sea, such as herbs and liquors, updated with a touch of modernity to be able to enjoy them through the five senses.

Destilerías Ibiza was born from the passion for land, local plants and artisan work that Juan acquired over the years in his family environment. Juan Fluxà fell in love with Ibizan traditions and became one of the biggest defenders of the local products of the island.

The Hierbas Ibicencas Fluxà, of own elaboration, is a traditional spirit drink of Ibiza and Formentera made with the careful maceration, on the basis of 70° ethyl alcohol from agricultural origins, of different local plants such as fennel, thyme, rosemary, lemon verbena, lavender, rue, eucalyptus, chamomile, juniper with berries, oregano, mint, spearmint, leaves and lemon and orange peel, and sage in the presence of other plants such as star anise or badian and green anise or pimpinella anisum.

LA RONCAIA

IL PRESTIGIO DI UN'EMOZIONE

VOTED #1 PINOT GRIGIO OF ITALY

PINOT GRIGIO

Classification: Pinot Grigio DOC Friuli Colli Orientali.

Grapes: 100% Pinot Grigio.

Soil and vineyard: Sandy Marlstones from Eocene Origin.

Vinification: Harvest takes place in late-September at full ripeness and pressing is made on whole grapes. Fermentation and maturation are effected in allier.oak barriques, where the wine slowly evolves for a total period of about one year. Spontaneous alcoholic and malolactic fermentations allow to develop complexity and body. The final ageing in horizontally placed bottles allows its perfect balance.

Appearance: Vivid straw yellow, with coppery tinges.

Nose: Complex fruity fragrances, mixing tropical sensations with delicate spicy notes.

Palate: A full and creamy body finishing with a refined minerality and a powerful, long-lasting aromatisation.

Product	Size	Vintage

RIBOLLA GIALLA

Classification: Ribolla Gialla DOC Friuli Colli Orientali.

Grapes: 100% Ribolla Gialla.

Soil and vineyard: marly soil of Eocene origin. The vineyard is planted with 4.200 single Guyot-trained vines per hectare.

Vinification: harvest takes place in mid-September at full ripeness and pressing is made on whole grapes. Fermentation develops in controlled low-temperature stainless steel vats and is followed by a slow maturation. After the necessary period of ageing in horizontally placed bottles, La Roncaia Ribolla Gialla is introduced into the market.

Appearance: a beaming straw yellow.

Nose: a frank olfactory intensity, evoking elegant floral scents, fresh recalls of aromatic herbs and delicate citrus fragrances.

Palate: minerality and freshness are balanced by a pleasant glycerine roundness.

Product	Size	Vintage
Ribolla	750mL/12	2022

ECLISSE

Classification: Bianco IGT Venezia Giulia "Eclisse".

Grapes: selection of the best grapes of Sauvignon and Picolit.

Soil and vineyard: marly soil of Eocene origin. The vineyard is planted with 3.200-4.000 single Guyot-trained vines per hectare.

Vinification: each vine is harvested in order to reach a perfect maturation. Pressing is made on whole grapes. Fermentation occurs separately for each grape variety, part in temperature-controlled (max 18C) stainless-steel vats and part in Allier oak barriques. The long contact with fine lees allows to produce a wine with great extract and aromatic complexity. Once assembled, "Eclisse" cuvée further ages in temperature-controlled steel vats until bottling. Then, the wine ages in horizontally placed bottles to reach its perfect evolution.

Appearance: deep straw-yellow.

Nose: a heady smell joining Sauvignon elegant aromaticness and Picolit fruit complex richness; green scents, perfumes of wild flowers and white pulp fruits, such as peach, merge in a fascinating fragrance.

Palate: freshness and minerality combine with a good smoothness, in a body showing harmony, big depth and persistence.

CABERNET FRANC

Classification: Cabernet Franc DOC Friuli Colli Orientali.

Grapes: 100% Cabernet Franc.

Soil and vineyard: marly soil from Eocene origin. The growing system is the unilateral Guyot.

Vinification: Cabernet Franc grapes, carefully selected, are harvested by expert hands at the moment of perfect ripeness. After a maceration of about 15 days, the product ages in stainless steel tanks at controlled temperature for at least 10 months. After bottling, a further refinement in horizontal position makes the wine even more balanced.

Appearance: deep ruby red, with purple shades.

Nose: a typical, frank aroma, full of vegetal, herbaceous and earthy scents. The fruity sensations are intriguing and impactful, especially recalling black cherries and wild blackberries. They mingle with winy fragrances and spicy scents completing the bouquet with an intense depth.

Palate: featuring lively but pleasant tannins, it strikes with a vibrant freshness that encourages to drink. The structure is balanced by a warm smoothness and supported by a good body, making La Roncaia Cabernet Franc a delightful wine in its authenticity.

FUSCO

Classification: Merlot DOC Friuli Colli Orientali.

Grapes: Merlot.

Soil and vineyard: marly soil of Eocene origin. The vineyard is planted with 3.500 single Guyot-trained vines per hectare.

Vinification: Merlot grapes, picked at peak ripeness, are partially raisined for about 8 weeks. This drying method, characteristic of La Roncaia style, aims at obtaining a more structured, well-rounded and fruity wine. The grapes are destemmed but not crushed and fermented in stainless steel tanks. After macerating for about 25 days the wine is racked and transferred to barriques. The wine rests in the barriques for at least 24 months during which it slowly ages. The wine further ages in the bottle to get more mature and balanced.

Appearance: ruby red with garnet tinges.

Nose: a multi-layered aromatic set, merging typically herbaceous scents and intense perfumes of red berries, in a fine, clean and elegant complexity.

Palate: structurally balanced, warm, smooth, appropriately tannic; La Roncaia Fusco is an engrossing and long-lasting wine.

REFOSCO

Classification: Refosco dal Peduncolo Rosso DOC Friuli Colli Orientali.

Grapes: 100% Refosco dal Peduncolo Rosso. **Soil and vineyard:** marly soil of Eocene origin. The vineyard is planted with 4.200 single Guyot-trained vines per hectare.

Vinification: after a late harvest, part of the grapes are carefully raisined for about 8 weeks. Vinification takes place in stainless steel tanks. The grapes, previously destemmed but not crushed, macerate from 25 to 30 days at controlled temperature. The wine is then transferred to new and once-used barriques for maturation with rackings every 90-100 days. For at least 24 months La Roncaia Refosco ages slowly in wood. After assembling the cuvée, the wine is bottled and ages in horizontal position for 6 months.

Appearance: deep garnet red with ruby glints.

Nose: intense, complex, with earth scents recalling wild essences and wild berries, spicy and toasted fragrances, up to ethereal perfumes.

Palate: warm, velvety, tannic; a wine with a great body, intensity and tasting persistence.

The Best of Italy

Brunello di Montalcino

This wine is made with 100% Sangiovese Grosso and it has Italy's highest DOCG classification. Ambassador of high quality wines around the world; the production area of Brunello di Montalcino is entirely within the territory of the Municipality of Montalcino, Tuscany and it reaches its best after a decade... it's worth waiting. The Brunello "Sant' Arturo" presents a brilliant ruby red colour with exceptionally bold fruit flavours and orange peel on the finish. On the nose, nice hints of rose petals. This medium-bodied wine will pair nicely with roasted meats and well aged cheeses.

Fine Italian Wines

Super Tuscan

This cru is made in a special vineyard, called Poggiogallo. The blend of 34% Sangiovese, 33% Merlot and 33% Syrah confer color, softness and structure to this fine wine. The bouquet is sour black cherry jam. Warm and rich in the mouth, with expressive tannins and smooth hints of vanilla. The aromas of black pepper, coffee, dark chocolate and leather derive from the long aging time in wood. The result is pure emotion.

Arezzo, Italy

Chianti, a red blend from Tuscany, is the most recognized wine outside of Italy. It is as essential to Italian cuisine as extra virgin olive oil. There are few pleasures as distinct as a tart, spicy, herbaceous Chianti wine next to a plate of sliced prosciutto or pasta al pomodoro. This riserva is a Chianti with all the grapes sourced from a single vineyard. The high elevation of the vineyard with its hot summer days and cool nights helps grapes develop good acidity, aromatic notes and more structured tannins. This wine is full-bodied with excellent structure and playful acidity all backed-up by a firm tannic backbone. This classic Chianti D.O.C.G. is aged over 24 months and the wine exhibits a taste and palate that combined both richness and elegance.

Dornfelder is a red wine variety that was bred in Weinsberg, Wüttemberg in 1955 in order to give German Vintners a dark red grape that would grow well in german vineyards. Traditionally, because of a climate that is cooler and less sunny than france or Italy, German wines had been primarily white. The reds of Germany were usually pale and light-bodied. Dornfelder, however is a german wine that is full-bodied with plenty of tannin, and has become the third most grown varietal in germany. with its robust plum flavour and sweetness, Dornfelder is better suited to spicy, heavy foods than to desserts.

RIESLING OF GERMANY

We are able to look back on a long history – first mentioned in 1744. Even without a Chateau or noble blood, we can be recognized by our quality, inventiveness, innovations, honest work, fast service and fair prices. Because of this we have conquered the hearts of a colorful crowd of wine lovers from around the world in recent years.

By consciously low yields and using ungrafted vines, we can always guarantee a high quality. The careful vinification, gentle grape processing, cool, slow, partly spontaneous fermentation and ripening result in individual Riesling wines, which reflect the uniqueness of the vintage and the vineyard.

ERDENER PRALAT

The absolute top vineyard of the Mosel. The ungrafted vines between 50-100 years old grow on red slate, perfectly south-facing with a slope of 70%

ERDENER TREPPCHEN

One of the most legendary vineyards of the Middle Mosel. The south west vineyard up to 65% slope grows on a heavily weathered gray slate.

RIESLING

Our cooler, higher-lying vineyards have slate soils that are rich in fine soil and can therefore hold back the water well. Year after year, one of the most exciting and precise riesling is produced in these locations. A short fine yeast storage rounds off the juicy, finesse-rich fruit aroma.

MAISON LISPAUL

David Maudry and his wife Shirley, decided to create the MAISON LISPAUL named in honor of their children Lison and Paul-Henri. Our vineyard is located in the heart of the Pouilly-fumé appellation in Tracy sur Loire. The Menetou-Salon appellation is located northeast of Bourges, southwest of the AOC Pouilly-fumé and Sancerre. The clay and limestone content of the soil, as well as its depth, help to shape the distinctive character of the wines produced from it.

SANCERRE

VINEYARD: All the soils are cultivated with respect of environment: sustainable agriculture with hand harvest followed by hand sorting on platform.

GRAPE VARIETY: 100% Sauvignon blanc AOC

WINE: This wine passed 5 months on the lees which gives it a particular finesse, then was aged in thermo-regulated stainless steel tanks for several months.

TASTING: Our sancerre is characterized by its citrus aromas and its inimitable “gun flint” notes. Fruity, minerality and freshness in the mouth to leave the taste full of emotions. The perfect match for aperitif, fish, seafood, oysters, white meat, spicy dishes and asian cuisine. A conservation of 3 years after bottling is possible.

Côté Atlantique Rose

Welcome aboard for a trip along the atlantic coast! This rosé wine is like a ray of sunshine breaking through the clouds, a cheerful companion for all of life's moments.

 Soils Clay-limestone	 Appellation IGP Atlantique
 Grape varieties 50% Merlot, 35% Cabernet Franc et 15% Cabernet Sauvignon	

Vinification

The grapes are harvested early in the morning to preserve all the freshness of the berries. Then follows a direct pressing; the grapes are pressed directly without prior maceration. The pressing is then very slow and the skins have time to give a light color, finely pink, to the juice. Then we proceed to the setting, which consists in decanting the grape juice before the start of fermentation. Then the wine ferments in vats at a controlled temperature of 16°C.

Pacifico Sur - Chile

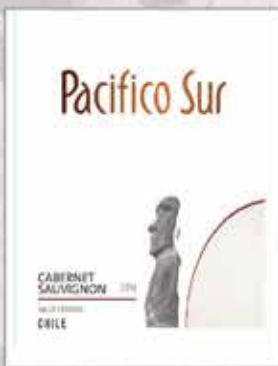

Pacifico Wines / Tutunjian winery began in 1999 when successful American businessman Edward Tutunjian from Boston was on vacation in Chile. He fell in love with the country and its wine. He decided to invest in Chile and acquired his first vineyard in the Curicó valley. Since then, he has acquired vineyards in Colchagua valley (60 years old vines) and Maule valley (10 year old vines). The first Pinot Noir was produced in 2002.

Pinot Noir Reserva

The Pacifico Sur Reserve Pinot Noir wine possess a clear, brilliant, ruby red color and emphasizes aromas of cherries and raspberries well combined with soft notes of oak. In the mouth it boasts smooth and elegant tannins followed by a sophisticated finish. Among Chilean Pinot Noirs, this is one of the best. Feels full, elegant and complete on the palate with spicy, layered flavors.

Carmenere Estate

Typical of Chilean Carmenere, It deals a mixture of herb, spice, olive and gritty berry aromas. The palate feels racy and it scrapes, while the flavor profile is defined by toast, black fruits, green-leaning herbs and licorice. It's full in feel, and it tastes slightly minty and spicy on the finish.

Yoshinotomo Sake Brewery

established in 1877 is the brewery behind the Hasu Label. Well known for their sake this award winning brewery is located in toyama, a region famous for its many sake breweries.

Yoshinotomo is committed to producing original sake, that is, sake made only from rice, and aims to create pure rice sake that everyone can easily drink.

Rice

Our main products only use rice produced in Toyama Prefecture (Yamada Nishiki, Gohyakumangoku, Oyama Nishiki, etc.).

Water

The water used for brewing is underground water (soft water from the Joganji River system) from the Tateyama Mountain Range, which comes from a well dug about 50m deep on the grounds of the brewery. The water is also very delicious for drinking.

“Create good quality sake and let everyone enjoy drinking it easily”

YELLOW LOTUS

Made with Gohyakumangoku sake rice from Toyama Prefecture and underground water from the Tateyama Mountain Range. When you put it in your mouth, the gorgeous rice flavor spreads out and the aftertaste lingers for a long time. It goes especially well with fish dishes. We also recommend pairing it with lean meat dishes. Carefully brewed to be enjoyed chilled and refreshing.

BLACK LOTUS

We carefully shaved Japanese Yamada Nishiki down to 28% and brewed it into a mellow-tasting liquor. The moment you put it in your mouth, you will feel a dry and sharp taste, and soon you will feel the gentle sweet aroma of Yamada Nishiki in the back of your nose. This is a sake that leaves your mouth feeling elegant and refreshing after drinking it, giving you a great sense of satisfaction. It goes well with any food. There are many enthusiasts who just drink without cooking.

JUNMAI GINJO

Île Four Premium Select 'Junmai Ginjo' Sake is to regular sake what malt whisky is to basic whisky. We start by removing 40% of the outer layers to reveal only the pure inner core of the special sake rice. Then we use a slow, highly labor-intensive process to create a very refined pure and clear Sake. With its light dry taste, fruity aromas of pear, and highly elegant modern aroma, Île Four Premium Select counts among the 6-7% top Sake in the world. Enjoy chilled with food or mix a premium-cocktail.

YUZU CITRUS SAKE

Possibly the greatest fruit on earth – combined with Premium Sake for the perfect Aperitif! The yuzu citrus fruit has been growing in Japan for more than 1000 years. Extracted in a complicated and expensive process from pulp and rind, Yuzu has a truly exceptional and intense flavor. Its complex aroma is utterly unique and its fresh citrus scent and the absence of the astringent acid of the lemon combine into an inimitable arrangement of sweet, bitter, salty and sour. In this combination with premium sake Yuzu turns into a uniquely refreshing aperitif. Try it simply over ice as 'Yuzu Crush' or add some bubbly for extra fizz!

MOMO PEACH SAKE

Japanese legend has it that Momo (Japanese peach) has powers against evil – Momotarō, for instance, is a boy who has been sent from heaven in a peach, and who later on liberates an island from occupying demons. While we cannot claim a demon-repelling function for Île Four Momo, we are pretty sure that this combination of aromatic momo and smooth premium sake gives you an incredibly fruity and creamy taste. Add some bubbly for a delicious Sake-Bellini!

UME PLUM SAKE

For many centuries the ume tree has been a symbol for the coming of spring in both China and Japan, because it blossoms early, at the end of January. Similar to the famous sakura cherry blossoms, the ume bloom is celebrated with countless festivals and special ceremonies. Japanese rarely eat ume directly – rather the fruit is enjoyed as a pickled 'plum' over rice or mixed with shochu as a traditional plum wine. Our version, however, is made with premium Sake to balance the acidity of the ume with the soft sweetness of the Sake. Enjoy over ice!
